

Wind subscriptions available

For centuries, the power of the wind has been used to grind grain, fill the sails of ships and lift water from wells. Today, modern wind turbines use the wind's energy to generate renewable electricity.

Fosston Municipal Utilities customers have the opportunity to voluntarily purchase 100 kilowatt-hour (kWh) blocks of wind-generated electricity through the *Infinity Wind Energy* program. The program is offered by our power supplier, Northern Municipal Power Agency.

Presently, two commercial-scale wind turbines are producing renewable energy for customers enrolled in the program. One turbine is located east of Valley City, N.D., along I-94 and the other is east of Petersburg, N.D., along Hwy. 2. Both turbines have been generating more electricity than originally expected.

Customers who wish to purchase wind energy at an additional cost of 50 cents per month for each 100 kWh block should complete the sign-up form below and return it to our office. Join your friends and neighbors to harvest the power of the wind. Call us today for more details.
